

**AN EVENT NOT TO BE MISSED FOR ALL
HEALTH CONSCIOUS CONSUMERS & NATURAL
HEALTH PRACTITIONERS**

**UNIQUE ONE-DAY
INFORMATION SEMINAR**

- *Are you concerned about continued access to effective natural health products?*
- *Do you feel confused or threatened by the recent rash of EU regulations and directives around natural health products?....OR...*
- *....Do you still think you won't be affected....?*

IF 'YES' IS THE ANSWER TO ANY OF THE ABOVE, THIS EVENT IS FOR YOU !

ONE-DAY SEMINAR

presented by

THE ALLIANCE FOR NATURAL HEALTH

New EU regulations in 2010 will set maximum levels for vitamin and mineral supplements. The over one million Irish people who routinely use nutrient-rich pills, powders and liquid tonics to boost their health or alleviate minor health problems will shortly find the potency in their familiar brands drastically reduced, while some nutrients will disappear entirely. *If you use these and other health care products, such as herbal preparations, the new EU regulations WILL DEFINITELY affect you and your freedom of choice.*

However, some key elements of the legislation remain to be agreed and your understanding of the issues will help you to make your voice heard so that together we can make a difference.

Dr Robert Verkerk and Meleni Aldridge of the Alliance for Natural health, hosted by the Irish Institute of Nutrition & Health, will present a one-day, not-to-be-missed, seminar covering the key regulations set to affect your freedom of choice and your health.

The seminar will clarify exactly what's coming down the Brussels pipeline in the near future. This knowledge will help you be part of the growing body of informed individuals and organisations working together to positively shape the regulations affecting natural health.

Seminar Date: Saturday January 23, 2010; 9.30am – 5.30pm

Location: Esplanade Hotel, Sea Front, Bray, Co. Wicklow

Fee: 35 Euro

Info & booking: info@iinh.net, ph. 01 2723003
